Join us on the road to
Kenya 2013!

Kenya 2013

The Past

Every four years, the Baylor University Men's Choir goes on an international concert and mission trip. In the past, the choir has been to Kenya and Argentina, and we are excited to be returning to Kenya this spring.

The Present

The Men's Choir has chosen to return to Kenya in 2013 because we have had many positive experiences there and have established strong relationships with individuals and churches within the country. Though the trip location may be similar, the experience is sure to be completely new and exciting.

The Future

The summer of 2013 will provide an opportunity for a new group of students to give, share, and receive aspects of music and community present only in the African culture.

- Monday, June 3rd - Arrive in Waco, TX

Trip Information Continued

How Will We Stay Safe?

In order to go to Kenya, Baylor requires several safety measures including the International SOS, Baylor's own Risk Management forms, and continuous access to safe food and water. In the event of any sudden change in the safety of the country, Baylor has helicopters available to Hilo-lift the group out of the country.

How Will We Raise The Money?

We have received generous gifts for this trip which will significantly reduce the cost for each person. After group fundraising through t-shirts, recordings, African bracelets, concerts, and donations, we hope to lower the cost per person to less than \$2,000.

What Immunizations Will I Need?

To travel to Kenya, participants will need Typhoid, Yellow Fever vaccinations, and Malaria medication. Additional Information can be found on the CDC Website.
